

# #BringBackOurGirls

## Two-Year Anniversary Demands

**The Nigerian Federal Government and Armed Forces be accountable to act with immediacy and transparency, particularly regarding the rescue and rehabilitation of the Chibok girls and the prevention of future humanitarian crises against women and girls.**

**These are our demands:**

### **Reintegration**

- Provide rehabilitation services, such as counseling and healthcare, to all abducted girls who have escaped or been rescued.

### **Public Safety**

- Bolster school security to ensure the protection of schoolchildren and curb future abductions.
- Adopt and implement the Verification, Authentication, and Reunification System (VARs), which includes establishing a Missing Persons Register, designed by the #BringBackOurGirls advocates in Abuja.
- Create a national communication platform that informs the public on safety measures being taken to protect Nigerian citizens from escalating violence.

### **Justice**

- Pass the Gender and Equality Opportunity Bill, which promotes women's freedom of movement, female economic activity, and girls' access to education.
- Prosecute Boko Haram militants for their crimes against humanity and provide witness protection to Chibok girls who testify against their captors.
